BLUEROLL

THE HIGHEST LEVEL OF PRECISION, EFFICIENCY AND ENERGY OPTIMIZATION

With more than 20 years of experience in creating tailored and forward-thinking motion control systems, Bonfiglioli has proven being a reliable partner as **one-stop shop for mechatronic applications** in industrial automation. Bonfiglioli engineering specialists work side by side with customers to develop dedicated integrated solutions, covering the entire motion drive train according to an **Industry 4.0 approach**.

Thanks to the extensive know-how and the long-term collaboration with key customers, our two centers of excellence, located in Italy and Germany, develop **breakthrough mechatronic innovations**, including low backlash planetary gearboxes, servomotors, open and closed loop inverters, servo drives and energy regenerative units.

This, combined with a comprehensive range of **Professional Services**, enables us to respond to customers' requests by:

- providing **user friendly, plug & play solutions**
- **increasing** applications' **efficiency** and **productivity**
- designing **flexible, modular solutions** targeted to a wide range of applications
- granting access to real time data for **diagnostic, maintenance** and **predictive analytics**

ASSESSMENT & RECOMMENDATION

ENGINEERING & PLANNING

INSTALLATION & COMMISSIONING

RETROFIT & UPGRADE

MAINTENANCE & REPAIR

FULLY COMMITTED TO THE SUCCESS OF OUR CUSTOMERS' SYSTEM OVER ITS LIFE CYCLE

Bonfiglioli technical sales experts support customers with a proactive, flexible and dedicated approach **throughout the system's entire life cycle**.

- **Assessment and recommendation:** our team provides support starting from the very early stage of the project by assessing the requirements and developing a targeted analysis of the application, guiding customers in the choice of the most suitable components for their drive solution.
- **Engineering and planning:** our experts work with customers to co-engineer their application, offering consultancy in sizing, fine tuning and selecting the optimized drive train, always considering life cycle cost optimization.
- **Installation and commissioning:** we partner with our customers to ensure a quick, cost-effective and successful installation, optimizing the benefits and functions of their drive technology.
- **Retrofit and upgrade:** we update customers' machines with state-of-the-art technology to ensure constant levels of productivity, reliability and performance.
- **Maintenance and repair:** we work side by side with customers to avoid failures, reduce down times and ensure the best system operation.

THE BLUEROLL PLATFORM

MODULAR AGVS AND AMRS SOLUTIONS TAILORED TO YOUR NEEDS

BlueRoll is the Bonfiglioli platform specifically developed to respond to the demanding requirements of the AGVs and AMRs sector in terms of power density, position accuracy and high load capacity. With its **flexibility** and **full customization**, it offers a **modular solution**, that reduces complexity while ensuring **maximum power density** and **energy efficiency**.

FULL CUSTOMIZATION FOR RELIABLE PERFORMANCE AND HIGH POWER DENSITY

EXPERTISE FOR CUSTOMIZED SOLUTIONS

Active partnerships and **co-engineering** to satisfy a **wide range of individual requirements**, from design constraints to type of duty cycles

COMPLEXITY REDUCTION

The **freely configurable modular solution** is available in various combinations and sizes to match both **design and performance requirements**

SECTOR SPECIFIC REQUIREMENTS

The solution can be designed to **meet specific industry sector requirements** such as high / low ambient temperature, surface protection, higher IP protection, compliance with specific regulations

THE HIGHLY FLEXIBLE AND MODULAR PLATFORM FOR A WIDE SPECTRUM OF APPLICATIONS

WAREHOUSE & LOGISTICS

MATERIAL HANDLING

PHARMACEUTICAL

FOOD & BEVERAGE

E-COMMERCE

A DEDICATED SOLUTION FOR DIFFERENTS VEHICLES DESIGN

In order to satisfy the requirements of a wide range of different vehicle concepts and designs, Bonfiglioli offers a **modular approach** for AGVs and AMRs, allowing the selection of the **best configuration** to effectively suit the specific application's needs.

Based on the design of your vehicle, we can provide the **single component** (servomotor or precision planetary gearbox, with and without the wheel) **or the integrated geared motor solution**, together with a wide range of **sector-specific components and options**, tuned to the requirements of mobile robots and logistic systems.

CUSTOMIZED LEVELS OF INTEGRATION

BLUEROLL COMPACT

Extra compact
Servo geared motors

BLUEROLL ADVANCED

Servo geared motors

BLUEROLL BASIC

Precision Planetary Gearboxes

Each version of BlueRoll is available both with and without the wheel.

BLUEROLL BASIC

TQW: PRECISION PLANETARY GEARBOXES FOR AMRS AND AGVS

BlueRoll Basic, based on our TQW planetary gearbox, represents the ideal solution for your drive wheels.. Thanks to its **heavy load capability**, **exceptional compactness**, **efficiency** and **durability**, it fulfills application-specific requirements in an optimum way.

High energy efficiency

Compared to other technologies, planetary gearboxes allow to reduce energy consumption at any load condition, hence extending battery life.

Minimized installation space

Since the gearbox is almost completely enclosed by the wheel, the required installation space is reduced to the minimum

Easy installation

Thanks to its fixing flange design, the gearbox can be fitted directly to the chassis of the vehicle

Heavy loads capability

The integrated wheel is supported directly by the reinforced gearbox bearings, which permit ultra-high radial forces

THE TQW PRECISION PLANETARY GEARBOX SERIES

TQW is available in **three sizes**, each supporting a maximum load (per wheel) of 360, 720, 1020kg. and coupled with a specific industrial wheel, with a diameter of 160 mm, 200 mm or 250 mm. **Maximum speeds** up to 2 m/s (7.2 km/h) are possible.

GEAR RATIOS

- 9 ... 100

DEGREE OF PROTECTION

- IP65

BACKLASH

- Less than 10 arcmin

MAX RADIAL FORCE

- 2300 ... 5200 N

MAXIMUM INPUT SPEED

- 4000 ... 6000 rpm

MAXIMUM LOAD CAPACITY

- 360 ... 1020 kg

MAXIMUM SPEED

- <2m/s

POSITION PRECISION

- 0.2 ... 0.3 mm

WEIGHT (WHEEL INCLUDED)

- 4,2 ... 18,1 kg

KEY FEATURES

- Extremely compact
- High energy efficiency
- Output shaft supported by heavy load capacity bearings
- Highly reliable
- Life lubricated
- Designed for continuous and intermittence duty

NOMINAL TORQUE (Nm)

TQW 060	30
TQW 070	65
TQW 090	155

MAX LOAD CAPACITY (kg)

TQW 060	360
TQW 070	720
TQW 090	1,020

BLUEROLL ADVANCED

A POWERFUL AND MODULAR SOLUTION TO DRIVE ANY AGVS AND AMRS DESIGN

Thanks to the effective combination of our **Permanent Magnet Servomotors**, characterized by high torque density and compact design, and our **Precision Planetary Gearboxes** designed for high loads support, BlueRoll Advanced offers the **ideal performance for AGV applications**, ensuring great levels of flexibility, safety and space-saving.

Embeds all the benefits of TQW gearbox from BlueRoll Basic

Tailored for your mobile robot thanks to a wide range of sector-specific features, i.e.: low voltage supply, special feedbacks including safety encoders, holding brakes

The **modular design** allows you to freely combine gearbox and motor to fulfil different application requirements

Extensive customization possibilities to meet any application requirement, including environmental constraints (e.g. low temperature)

High energy efficiency thanks to the optimized combination of servo motor and gearbox

PERMANENT MAGNET SERVO GEARMOTORS

The BlueRoll Advanced servomotors are permanent magnet synchronous gearmotors with **highly compact dimensions** and **low inertia**. They meet the most stringent demands for precision, dynamics and speed settings thanks to their high-quality neodymium iron boron rare-earth magnets and optimized mechatronic integration. The solution allows great freedom in the **product customization**, thanks to the **wide range of options**, for an **optimized and flexible servo package**.

POWER SUPPLY

- Customized winding for low voltage supply (i.e. 48Vdc)

RATED SPEED

- 1600, 3000, 4500, 6000 rpm

SIZES

- 3 gearbox sizes
- 4 motor frames

BACKLASH

- Less than 10 arcmin

BRAKE

- Holding brake
- Safety brake

DEGREE OF PROTECTION

- IP 65, IP 67 possible

KEY FEATURES

- Highly customizable solution
- Specific matching between the individual application demands and the gearmotor's operating area
- Wide range of encoders and protocols suitable for functional safety
- Various connectors options or flying cable

BMD SERIES MOTOR TORQUE (Nm)

BLUEROLL COMPACT: THE TOP-LEVEL INTEGRATION

EXTRA COMPACT SERVO GEARMOTORS

Reach the **highest level of customization and compactness** with our **complete solution**, characterized by **fully tested** and **validated dimensioning** tailored to your specific requirements. Developed to respond to customer's requests, the extreme compactness of this solution allows **greater flexibility in the design** of your AMR application.

Embeds all the benefits of TQW gearbox from BlueRoll Basic

Make the battery last longer: the combination of low voltage PMSM and a planetary gearbox in a compact design, makes BlueRoll the right choice for your battery-powered system.

Simplify your AGV design: the Compact version is **25% shorter** than the Advanced version, maximizing space-saving and preserving high-level performance.

Choose the best configuration: thanks to its wide range of gearbox ratios, feedback systems (including safety encoders), and motor options, BlueRoll is the most versatile platform on the market.

OTHER BONFIGLIOLI SOLUTIONS FOR AGVs

Thanks to over 40 years of experience in the sector, Bonfiglioli is the right partner to support you in **developing and designing** electric powertrain and drive **solutions for warehouse vehicles**.

Our EL Series is able to respond to the most demanding requirements of warehousing applications, ensuring **great loads capability, extreme compactness** and **high maneuverability**.

EL SERIES

Bonfiglioli EL powertrains are a perfect match for the most demanding warehousing applications (Class 2 and Class 3). Warehousing trucks require high maneuverability in tight spaces, provided by drives like the EL series drives, with the smallest operating radius in vertical arrangements.

GEAR RATIOS

- 13 ... 32

POWER RANGE

- 2 ... 7 kW

MAIN OPTIONS

- Cold environment versions
- Integrated tiller or castor wheel supports

KEY FEATURES

- Two-stage helical & bevel gearboxes
- Manual steer and power steer versions
- Optimized gear design for efficiency and noise
- Integrated low-voltage electric motor
- Integrated parking brake
- Complete system with tyres

OUR GLOBAL PRESENCE

Thanks to an international network of closely interconnected commercial and production sites, we can guarantee the same high standards of Bonfiglioli quality anywhere at any given time. We know that our direct presence in local markets is the key to long-lasting success, so our family includes 20 production sites, 26 commercial sites and more than 550 distributors around the world.

Our organization is always close by, offering complete and efficient solutions and supporting our customers with dedicated services, co-engineering and after-sales assistance.
